Hello Paul,

We wanted to follow up with you regarding this project. We received a draft of the comments on August 4th; however, the document was not finalized until August 31st according to the letter. We wanted to request 30 days from that date to be able to respond to the file (not September 12th listed). Furthermore, we would like to request a little bit more of an extension because there was a delay in obtaining your comments to be able to respond.
